**FEARLESS
VISION**

FEARLESS VISION

Someone asked Scott recently, "Why do you think Third City has seen so much growth?" My response was that we just found a way to do THE NEXT RIGHT THING. But doing the next right thing isn't as easy as it sounds. It takes courage to move against the stream of resistance that works against the success of a church or supportive ministry. It requires grit to keep the priorities primary. Most important, it takes a GOD FOCUSED vision to stay in position for right things to happen.

Our Speaker:

Scott Jones

Scott recently concluded his role as Senior Minister with Third City Christian Church (Grand Island NE) and is working with the 10:TWO Project to Call, Create and Care For Church Leaders. His unique vision for ministry transformed that church and impacted many lives. We are excited to hear his story as he shares the keys to maintaining a *FEARLESS VISION*.

Featuring:

Phil Claycomb

Phil is no stranger to the NPEA region. His mentorship has helped develop many of our church planters, and his sharing of the Psalms have inspired us all! He serves as Executive Director of *Nexus*.
